Note about these quilt layouts: My goal was to provide several different layouts using the same block design and border. The colored versions are just a way to suggest one coloring for this layout. There are many others. The uncolored version is so you can play with the possibilities. I didn't indicate fabrics in the cutting list because it will vary. Decide on your color placement, determine how many blocks use the same color layout and multiply the pieces needed for one block times the number of blocks you are making to determine the number of pieces to cut for those blocks.
Have fun!
